# 1. Introduction

The NL-SW-LTE-GELS3 Skywire® modem was originally manufactured using Gemalto firmware version 4.3.1.0. Gemalto has since released new firmware for mass production, release 4.3.2.0, which includes many updates including support for PPP over UART, enhanced AT command set, and TLS stack support.

# 2. Migration Overview

Customers with existing products can update to version 4.3.2.0 via a firmware update procedure, example procedure provided in application note 30162.

All new orders should use part number NL-SW-LTE-GELS3-B which is specific to firmware version 4.3.2.0.

Updated documentation for firmware version 4.3.2.0 can be found on the product page here: <http://nimbelink.com/skywire-4g-lte-cat-1/#docs>

# 3. Last Time Buy Date

NL-SW-LTE-GELS3 devices with firmware 4.3.1.0 as well as the underlying Gemalto module can no longer be purchased.

All existing orders should move to NL-SW-LTE-GELS3-B.
