1. Introduction

NimbeLink is issuing the End of Life (EOL) notification for the NL-SW-1xRTT-X family of Skywire modems. Several factors are driving this notice. As of this writing Verizon will no longer support future 2G CDMA activations after June 30th 2018. This will directly impact all Skywire versions for the Verizon network. The Aeris version of the 2G CDMA Skywire modem is being EOL for lack of commercial volumes. The Sprint version of the 1xRTT will remain available however NCNR until further communication from Sprint on the viability of the 1xRTT network support.

Affected Part numbers:

NL-SW-1xRTT-V

NL-SW-1xRTT-VP

NL-SW-1xRTT-A

2. Migration Overview

The Skywire product line provides electrical and mechanical migration paths to newer LTE technologies. Please visit our website for more information, <http://nimbelink.com/skywire-cellular-modem/>

3. Last Time Buy Date

Last time purchase orders must be placed by April 30th, 2018.

All new orders are Non Cancelable, Non Returnable (NCNR).

4. Last Time Ship Date

All requested dock dates must be scheduled for or before May 31st, 2018.
