1. Introduction

The NL-SW-LTE-SVZM20 Skywire® modem is transitioning from Production to Not Recommended for New Design (NRND). This is a production classification that the part is approaching the end of its product life cycle, but is not EOL. The part is still in production; however long term support is not guaranteed. End of Life and Last Time Buy dates have not been established at this time; NimbeLink will distribute a separate EOL PCN when the product moves into End of Life.

The following part numbers are now NRND:

- NL-SW-LTE-SVZM20
- NL-SW-LTE-SVZM20-B

2. Migration Overview

NimbeLink understands that changing a major component in any design is a hardship and recommends that all new designs using the NL-SW-LTE-SVZM20 migrate to the NL-SW-LTE-QBG96.

Additionally, customers with existing designs using the NL-SW-LTE-SVZM20 should start evaluating the NL-SW-LTE-QBG96 to develop a migration strategy.

Additional details on the NL-SW-LTE-QBG96 are available on the product page.
