

Free Yourself from Monthly Contracts

Skywire Modem with Pre-Bundled Data Plans

Making cellular simple is our mission, and now we've taken it to a new level. Our Skywire Embedded Modems are now available with data included. Cellular service is included for all major carriers in North America, as well as 100+ countries worldwide.

NimbeLink continues to make cellular simple!

With a minimum quantity purchase, Skywire modems are ready to go, out of the box, already configured for a global deployment. All the benefits of cellular without any hassles.
